Kitchen Scales

Weighing can be a pleasure!

Kitchen scales with integrated silicon mat for your pots and pans, such as the Philippa? In the latest colours, like the Felia? Not forgetting the all-rounder Cosma with wireless display… Yes, ADE has everything! Accurate weight measurements are combined with stunning style and the form oozes functionality!

Old proverb turned on its head: the right set of cooks improves the broth!

ADE trending topic: Lilac or chilli, lemon or jade, or classics such as red and black – let's make the kitchen colourful. As well as maximum functionality, of course! Pages 9,11, 13 and 18.

Classics of Baking

ANGELINA

Kitchen Aids

It can come down to a mere second…

… and your steak can turn into an expensive chunk of rubber or your pasta can come out as a sludgy mess. That is why ADE, as an expert in accurate measuring equipment, has kitchen timers and thermometers to round off its kitchen range.

Pleasure – a question of timing!

Downright Exact

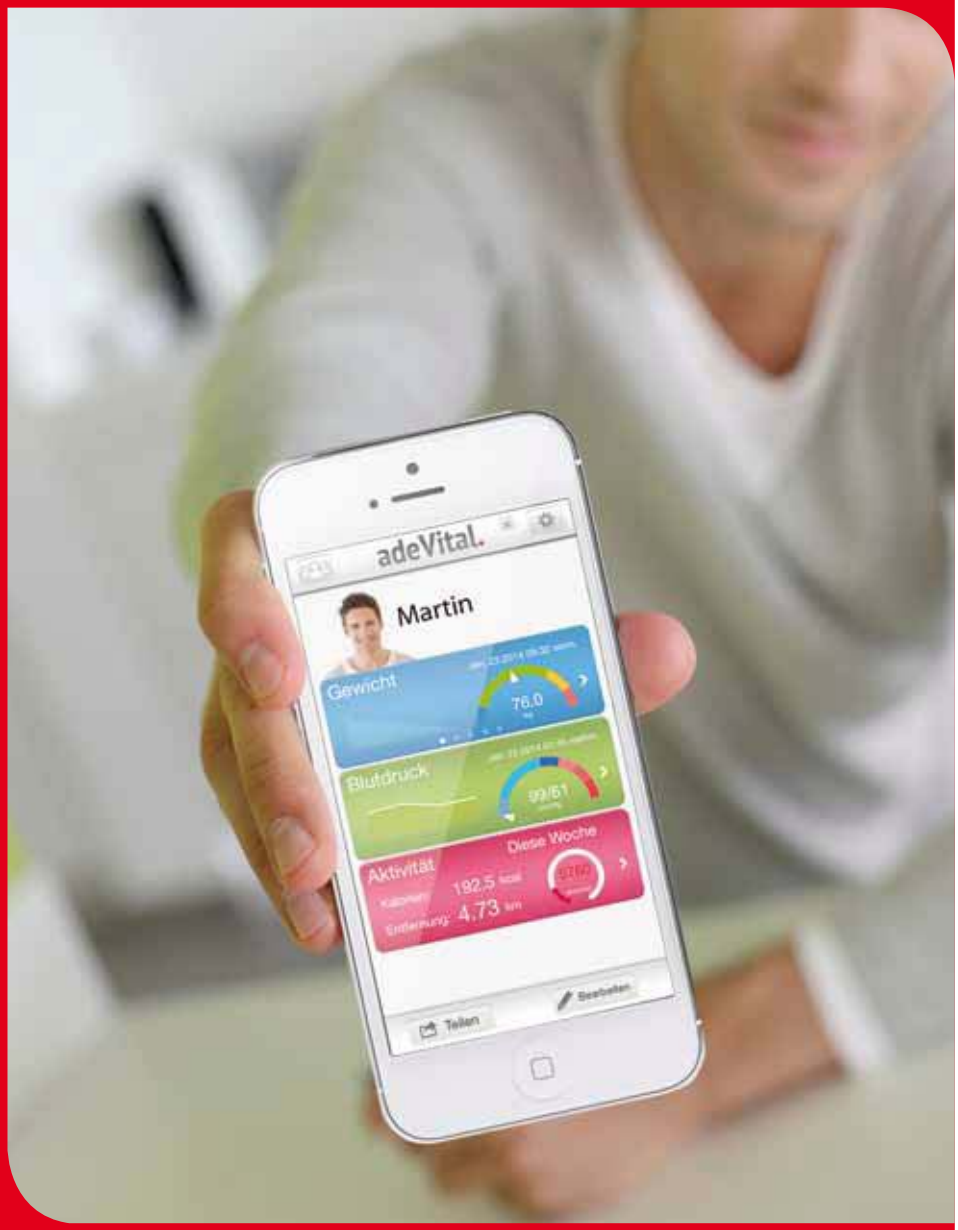
Health monitoring

The body balance app!

The perfect formula: body awareness plus adeVital! Smart aids - analysis scales, blood pressure monitors and activity meters – provide the user with information on weight, activity and blood pressure in graphic or table format via our free app. The app provides all your body balance information in a user-friendly and convenient way wherever active people want to access it.

Health as lifestyle



For greater motivation: guide to ideal weight.

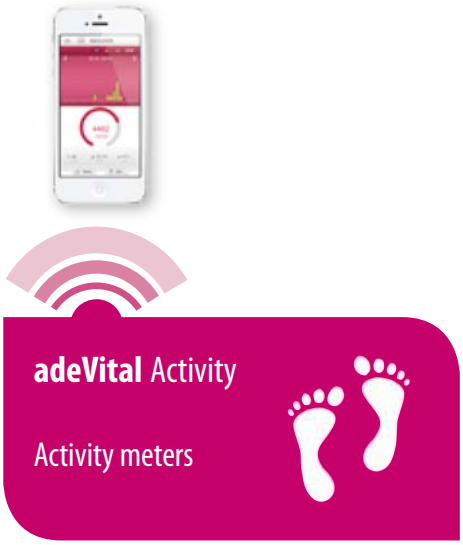
Can be displayed by time of day: blood pressure measurements.

Can be accessed at any time: calorie consumption & more.

ADE trending topic: Mobile health monitoring meets a current trend head on! adeVital brings clever technology and body awareness together in perfect harmony! Page 26

The app using smart aids: adeVital

Record, manage and analyse health data simply and clearly with the new adeVital product range with Bluetooth functionality and the intelligent adeVital app. This is today's health monitoring technology!



- The app is available for iPhone 4S, iPhone 5, iPhone 5S, iPad 3, iPad Air, iPad mini and iPod touch (5th generation) and all newer versions, compatible with Bluetooth 4.0
- Free adeVital app download
- Android version coming in March 2014
- Secure and fast data transfer via Bluetooth
- All health data and measured values always with you and available at all times
- Simply tracking of all data via a clear interface and intuitive operation
- Easy data delivery via the integrated email function, Facebook and Twitter

Analysis	body fat, body water and muscle mass in precise 0.1 % steps
Calculation	bone mass in precise 100 g steps, BMI, daily calorie requirement (BMR)
Memory space	10 users
Operation	sensor touch
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	350 x 300 x 23	kg, lb, st

Model number	Colour	EAN-no
BA 1405	silver	

NEW

SELINA

Our all-rounder – body analyser scales with seven functions in three fresh colours

Weighing surface	safety glass
Display/Size	LCD, 80 x 42 mm
Analysis	body fat, body water and muscle mass in precise 0.1 % steps
Calculation	bone mass in precise 100 g steps, BMI, daily calorie requirement (BMR)
Memory space	10 users
Operation	sensor touch
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	328 x 318 x 26	kg, lb, st

Model number	Colour	EAN-no
BA 1406	ocean	
BA 1407	jade	
BA 1408	sand	

MARISA

Simply great – displays all analysis results at a glance

Weighing surface	safety glass
Display/Size	LCD, 74 x 30 mm
Analysis	body fat, body water and muscle mass in precise 0.1 % steps
Memory space	10 users
Operation	tap on function; press buttons
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	300 x 300 x 18	kg, lb, st

Model number	Colour	EAN-no
BA 915	silver	

SIMONE

Ensures more convenience – body analyser scale with sensor touch keys operation

Weighing surface	safety glass
Display/Size	LCD, 128 x 50 mm
Analysis	body fat, body water and muscle mass in precise 0.1 % steps
Calculation	bone mass in precise 100 g steps
Memory space	10 users
Operation	tap on function, sensor touch
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	320 x 300 x 25	kg, lb, st

Model number	Colour	EAN-no
BA 1001	charcoal grey	

Winner
in Staying Power

BARBARA

Robust and sustainable – weighing platform
made of FSC-certified bamboo

Weighing surface	bamboo wood, 16 mm
Display/Size	LCD, 83 x 45 mm
Analysis	body fat, body water and muscle mass in precise 0.1 % steps
Calculation	bone mass in precise 100 g steps
Memory space	10 users
Operation	tap on function, sensor touch
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	300 x 300 x 34	kg, lb, st

BA 914	bamboo	

Bathroom Scales

In pole position with top-rated products

In January 2014, our digital Tilda bathroom scales awarded first place by Germany's largest independent consumer organisation, which objectively tests goods and services. Ou model Clinica took first place among the best mechanical scales. Top ratings help you score points at PoS! And the new Emma scales are a seamless continuation of the high level of quality and precision in our top-rated products!

Quality for individuals

ADE trending topic: Individuality for the bathroom! Whether in the latest colours or for purists, the bathroom scales from ADE suit all kinds of styles.
Pages 41, 43, 44 and 45

Siegertypen

TILDA

Comfortably keeping an eye on the weight –
extra-flat scale with removable operating device

Weighing surface	safety glass
Display/Size	LCD, at the integrated operating device, 46 x 22 mm
Operation	step on function; removable infrared remote control
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	302 x 302 x 17	kg, lb

Model number	Colour	EAN-no
BE 1307	silver	

Top rating from the „Stiftung Warentest" consumer research and testing organisation: **final winner/bathroom scales**

LOTTA

Elegant glass scale with trendy tribal art pattern

Weighing surface	safety glass
Display/Size	LCD, 74 x 54 mm
Operation	step on function
Features	overload indication, battery level indication, automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	302 x 302 x 17	kg, lb

Model number	Colour	EAN-no
BE 1305	silver	

EMMA

Design meets power – bathroom scales in an elegant, classic design with 180 kg maximum load

Weighing surface	ABS plastics
Display/Size	LCD, 22 x 22 mm
Operation	step on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	300 x 319 x 28	kg, lb, st

Model number	Colour	EAN-no
BE 1407	silver-grey	

NEW

AMELIE

Something unique in the bathroom – bathroom scales with blue-lit display and speedometer design

Weighing surface	safety glass
Display/Size	LCD, Ø 76 mm
Operation	step on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	350 x 300 x 23	kg, lb, st

Model number	Colour	EAN-no
BE 1405	silver	

Baby on Board!

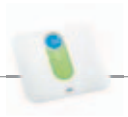
ELLA

Varied talent mission within four walls –
family scale with practical add and weigh feature

Weighing surface	ABS plastics with decorative glass frame
Display/Size	LCD, Ø 72 mm
Operation	step on function; intuitive operating by back-lit symbols
Features	with practical add and weigh function; overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	50 g	330 x 310 x 22	kg, lb

Model number	Colour	EAN-no
BE 1298	☐ white	



SILJE

Brings Scandinavia home –
classical bathroom scale feshly designed

Weighing surface	ABS plastics with decorative glass frame
Display/Size	LCD, 75 x 53 mm
Operation	step on function
Features	highly precise sensors; overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	306 x 306 x 21	kg

Model number	Colour	EAN-no
BE 1303	☐ white-black	
BE 1304	☐ white-turquoise	

MALIN

Take away – designer scale with a capacity up to 180 kg and a comfortable handle

Weighing surface	safety glass
Display/Size	LCD, 60 x 60 mm
Operation	step on function
Features	overload indication, battery level indication, automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	330 x 338 x 21	kg, lb, st

Model number	Colour	EAN-no
BE 1300	silver	
BE 1301	light green	
BE 1302	ice blue	

High Performance Class

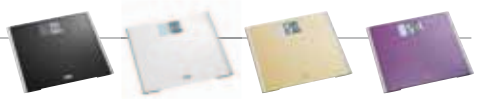
AGNETA

Full power in five colours – weighing up to 180 kg

Weighing surface	safety glass
Display/Size	LCD, 94 x 56 mm
Operation	step on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	320 x 300 x 25	kg, lb, st

Model number	Colour	EAN-no
BE 930	black	
BE 931	white	
BE1011	lilac	
BE 1012	sand	



ALEYNA

Big performance – glass scale with extra-large weighing platform

Weighing surface	safety glass
Display/Size	LCD, 56 x 94 mm
Operation	tap on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	380 x 330 x 23	kg, lb, st

Model number	Colour	EAN-no
BE 1215	black	
BE 1216	sand	

Eco-friendly

MARTINA

Pretty eco-friendly – weighing platform made of genuine FSC-certified bamboo

Weighing surface	bamboo wood, 15 mm
Display/Size	LCD, 83 x 45 mm
Operation	tap on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	300 x 300 x 34	kg, lb, st

Model number	Colour	EAN-no
BE 925	bamboo	

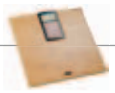
INGA

Sustainable combination – scale with solar cells and FSC-certified bamboo

Weighing surface	bamboo wood, 14 mm
Display/Size	LCD, 57 x 35 mm
Operation	step on function
Features	extra eco-friendly: has been awarded the Blue Angel eco-label; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	310 x 310 x 39	kg, lb, st

Model number	Colour	EAN-no
BE 1205	bamboo	



Daria

High-quality glass scales with exceptional price/performance ratio

NEW

Weighing surface	safety glass , 6 mm
Display/Size	LCD, 75 x 30 mm
Operation	step on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
180 kg	100 g	300 x 300 x 20	kg, lb

Model number	Colour	EAN-no
BE 1231	silver	

LENI

Clearly identified – scale with extra-large figures for easy reading

Weighing surface	safety glass
Display/Size	LCD, 97 x 45 mm
Operation	step on function
Features	overload indication; battery level indication; automatic shut off

Capacity	Graduation	Size in mm	Units
150 kg	100 g	300 x 300 x 23	kg, lb, st

We give a three-year guarantee on all ADE consumer scales.
Delivery of all battery powered ADE consumer products is including the batteries.

Let's wrap it up!

As carefully thought out as our products is our packaging. Moreover it is customer-oriented and creating strong purchase impulses. The distinctive and eye-catching design of ADE ensures best single-minded orientation of your customers at the POS by clearly placed brand and product messages.

Behind our clever messages you will discover smart features that initially make a really good scale or measurement device. What our products are capable of is explained by the following compass of values. This is a powerful instrument for your customer communication as well.

Wrapped in appetizing design – filled with outstanding features.

Solar powered scales They are environment-friendly weighing partners for bathroom or kitchen. For full operation only normal floor lighting is needed. Not more than 100 lux of light intensity are necessary. An efficiently lightened room normally has a light intensity of app. 700 lux.

Tap on function You switch the scale on by tapping on it: a brief tap on the surface and after a few seconds you can see 0.0 appear in the display.

Tare function The tare function or add and weigh feature comes in very handy for cooking and baking. For instance, if the recipe asks you to add still 120 g of butter to the flour and eggs, you press the tare button and thus set the display of your kitchen scale to zero: what is weighed then is only the amount added.

Weighing of liquids With this feature you can toggle the measuring unit of your kitchen scale between weight and volume, gram and millilitre (resp. lb and oz). In this way, you can easily add the required volume of any liquid.

Activity Level The combination of muscle tissue, bones and body fat with people who do a lot of sport is different from that with people who do little sport or none at all. The activity level therefore contains parameters based on medical studies on sportsmen and sportswomen. If you do sport intensively for more than ten hours a week and if you have a resting pulse rate below 60 you should select the activity level for more precise measuring results.

BMI-Function Too fat, too thin or just about normal? This question concerns almost everybody. To determine the normal weight of a person the Body Mass Index (BMI) is used as an international standard. The BMI function of your scale shows you whether your BMI is acceptable according to the criteria of the World Health Organisation.

Body fat Body fat is not altogether bad. It performs vital tasks in your body. Too low or too high, a percentage of body fat may be a health risk. The body fat analysis function connects the measured value with other personal data. Thus you know whether everything is well-balanced.

Body Water Water is our elixir of life. A 1% loss of water may lead to a 10% reduction in performance. So it's good to have one's water balance monitored.

With all the trimmings – a fresh look for a fit performance.

Bone Mass Determining the bone mass – always in connection with the other data – provides information on how things stand with our basic framework.

Calorie Requirement Every person has an individual basal metabolism. That is the amount of calories your body burns when resting. Scales with a calorie requirement function automatically calculate the amount of energy you need. So you know then how many calories you may take in and still keep your weight.

Muscle Mass Muscles make people strong and beautiful. They keep us in top-form and also have important functions like for instance for the metabolism of the body. So make sure that you have your muscles checked regularly.

Sensor Touch The highly sensitive sensor touch buttons ensure easy and comfortable operation. You just need to touch the buttons gently.

Step on function The step on function automatically switches the scale on when you step on it and automatically switches it off a short while after you have stepped down from it.
